Portfolio: https://reactportfolialex.herokuapp.com/

Full Stack Web Developer with a background in sales and customer service providing strong problem-solving skills with a keen eye for details and demonstrations. The ability to participate and work on a diverse team while solving problems in high-stress environments to reach a shared goal. An expressive individual who has a desire to create applications that will be able to assist a company or individuals to make their lives easier. Eager to combine background in customer service with technical skills as part of a fast-paced, quality-driven team to build better experiences on the web.

TECHNICAL SKILLS

Node.Js, Express, JavaScript, jQuery, React.js, React, JSX, GIT, GitHub, MongoDB, MySQL, Mongoose, Handlebars, HTML5, CSS3, Bootstrap, Materialize, APIs, Heroku, Terminal, AJAX, Restful API, ES6+, ES5, React Hooks, JSON, Sequelize

PROJECTS

Weather Dashboard | Full Stack Developer | Deployed Link: https://alexpr704.github.io/weatherApp/
Github Link: https://github.com/AlexPR704/weatherApp
A weather dashboard application helps with travelers or anyone planning a trip. It is able to assist by viewing the weather before leaving for your destination.
- **Role**:Used jQuery AJAX method to make requests to server-side APIs. Created an HTML page and styled with CSS and integrated Openweathermap API and manipulated the DOM using JavaScript leveraging the DOM API.
- **Utilized**: HTML, CSS, JSON, Materialize, AJAX, HTTP GET requests, and Server-side APIs

Nutrition Journal | Full Stack Developer | Deployed Link: https://salty-ravine-80275.herokuapp.com
Github Link: https://github.com/Sharonyel/Nutrition_Journal
An application where a user can keep track of their nutrition habits. This app allows you to enter the foods you have eaten and the nutritional facts about that food will be displayed.
- **Role:** Responsible for Application Design, Deployment, and the API.
- **Utilized**: HTML5, CSS, Passport, Express, BULMA, Heroku, Sequelize, Javascript, jQuery, MySql, Handlebars, Nutritionix API.

Employee Directory | Full Stack Developer | Deployed Link:
https://employee-directory23.herokuapp.com
Github Link: https://github.com/AlexPR704/employee-directory
Created with React, this employee directory is a fast and easy way to display non-confidential information about employees for managers or co-workers. Employees can be searched for by name and the directory can be sorted by alphabetical order so team members can be found more easily.
- **Role:** Responsible for Application Design and deployment.
- **Utilized**: React.js, Node.js, JSX, Bootstrap

EXPERIENCE

Independent Distributor for Flowers Baking Company | Bessemer City, NC | Sept 2018 - Present
Handle more than 20 accounts distributing branded products for the organization.
- Successfully managed the ordering process and utilized industry's best practices to increase sales by 10% YoY.
